## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach or fairly suggest a serial/parallel A/D converter for converting an analog input voltage into a digital value including a second voltage comparator array samples the received analog input voltage, receives and holds a prescribed initialization voltage in an arbitrary period of time, and compares the value of the second reference voltage which has been changed from the prescribed initialization voltage to a voltage value which is selectively output by the plural switches constituting the reference resistor and switch array in accordance with the first code selection signal, and the value of the sampled analog input voltage as called for in claims 1-6 and 11. Therefore, claims 1-11 are presently allowed.

### ***Conclusion***

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John B Nguyen whose telephone number is (571) 272-1808. The examiner can normally be reached on 8AM-4:30PM M-F.
